

MEMBER TO MEMBER ASSISTANCE PROGRAM

ASSISTANCE FOR MEMBERS IN NEED.

scan here:

Get assistance when you need it most.

To join the Member to Member program, visit our community programs webpage at <https://neccoopenergy.com/nec-co-op-energy-offers-assistance-for-members-in-need/>.

**Assistance is subject to agency policies and fund availability.*

NEC Co-op Energy's Member to Member assistance program helps fellow members pay electric bills through area community action agencies. Member donations and unclaimed credits fund the assistance program through local agencies.

Critical Care Status on an Electric Account NEC Co-op cares!

Texas electricity consumers with a family member on life support or who have a chronic condition for whom an interruption of power could result in a life-threatening condition can apply for chronic condition or critical care status. This status provides extra notice for potential outages by applying for special status with their provider.

Learn more
by scanning here:

****Critical care status does not guarantee an uninterrupted power supply. If electricity is necessary, you must make arrangements for on-site-back-up capabilities or other alternatives.***

Big Things Happen When You **ROUND UP**

NEC Co-op Energy members volunteer to "round up" their electric bills to the next dollar through our Operation Round Up program. Funds are collected and donated to Nueces Electric Charities, Inc. who award grants to various charities. Charities we grant funds to include HALO-Flight, Metro Ministries, CASA & more!
